ABSTRACT

This report is based on data gathered in a 1985 survey of college and university libraries conducted as part of the Higher Education General Information Survey XX (HEGIS XX). Data are presented in 17 tables, which are divided into national summaries (tables 1-6), summaries by state (tables 7-10), and institutional data (tables 11-15); there are also two tables from the Center of Education bulletin, "College and University Libraries, Fall 1985"). The first six tables present the data in the following categories: distribution of institutions of higher education by number of volumes and by number of titles of books, serials, and government documents held at the end of the year, and by institutional control, size, and type; total operating expenditures, or total selected special expenditures, and distribution of expenditures of higher education libraries by purpose and by institutional control, size, and type; and the number and percent of full-time equivalent library staff in institutions of higher education libraries by institutional control, type, and size. Similar categories of statistics are then analyzed and reported by state and by institution. A copy of the HEGIS XX questionnaire is included. (CGD)

HEGIS XX Questionnaire 231

Foreword

Most of the tables in this report were prepared by ASG, Inc. for the Center for Education Statistics using data gathered from college and university libraries in Fall 1985 as part of HEGIS XX. They update some of the tables in two earlier publications presenting data from the Fall 1982 HEGIS survey. Earlier versions of national summary tables 1-4 in this volume were in College and University Libraries, 1982 published by the National Center for Education Statistics. Tables 11, 13 and 15 update tables 1, 2, and 3 of Library Statistics of Colleges and Universities, 1982 Institutional Data published by the Association of College and Research Libraries from copy provided by the National Center for Education Statistics.

Thanks are due to several persons at the Center for Education Statistics for making this data available. Gerald Malitz was project director for the survey and worked with ALA/ACRL to make it useful to librarians. Aurora M. D'Amico was responsible for obtaining contractor tables for publication by ALA, for preparing additional tables using LOTUS 1-2-3, and for handling numerous details related to the publication. Stanley Kwaczala, computer system specialist at CES, produced table 15 at the request of ACRL and provided computer support for the production of Tables 1 and 2 in the CES Bulletin on "College and University Libraries, Fall, 1985" which are reproduced here. Thanks are also due to staff at ASG, Inc. of Silver Spring, Maryland where most of the tables were prepared under contract to CES. Ellen Jones managed the project at ASG and Arthur Anderson was responsible for programming.

ACRL is grateful to all of those just mentioned for helping ACRL provide useful information to academic librarians. We are also grateful to Mary Jo Lynch, Director of ALA's Office for Research who suggested this publication to us and worked hard to make it happen, and to Mary Ellen Davis, ACRL Program Officer, who carried out all the coordinating efforts needed to publish a product involving so many different agencies and individuals.

JoAn S. Segal
Executive Director, ACRL
June, 1987

TABLE 1. --DISTRIBUTION OF INSTITUTIONS OF HIGHER EDUCATION BY NUMBER OF VOLUMES OF BOOKS, SERIALS AND GOVERNMENT DOCUMENTS HELD AT END OF YEAR, AND BY INSTITUTIONAL CONTROL, TYPE AND SIZE: 50 STATES AND D.C., 1965

Higher Education General Information Survey (HEGIS XX)

College and University Libraries - Fall 1985

This form is authorized by law (20 U.S.C. 1221 e-1). While you are not required to respond, your cooperation is needed to make the results of this survey comprehensive, accurate, and timely.

DUE DATE: NOVEMBER 30, 1985

1 NAME AND MAILING ADDRESS OF INSTITUTION OR CAMPUS COVERED BY THIS REPORT
(See Definitions of Institutions on this page.) (Include City, State and Zip Code.)

2 FICE CODE NUMBER

3 NAME AND TITLE OF RESPONDENT

4 TELEPHONE NUMBER OF RESPONDENT
(area code, local number, and extension)

5 **PLEASE NOTE** THAT EACH INSTITUTION, BRANCH, CAMPUS OR OTHER ENTITY SEPARATELY CERTIFIED BY THE ELIGIBILITY AND AGENCY EVALUATION STAFF OF THE U.S. DEPARTMENT OF EDUCATION, WITH ITS OWN FICE CODE, AND LISTED SEPARATELY IN THE **EDUCATION DIRECTORY–COLLEGES AND UNIVERSITIES,** SHOULD BE REPORTED ON A SEPARATE SURVEY FORM AND NOT INCLUDED OR COMBINED WITH ANY OTHER SUCH CERTIFIED UNIT BRANCHES, CAMPUSES, AND OTHER ORGANIZATIONAL ENTITIES NOT SEPARATELY CERTIFIED SHOULD BE INCLUDED WITH THE APPROPRIATE INSTITUTION OR BRANCH REPORT. IF SUCH ARE INCLUDED IN THIS REPORT, PLEASE LIST THEM BELOW.

ARE DATA FOR THIS UNIT INCLUDED IN THIS REPORT?	NAME OF BRANCH AND/OR OTHER CAMPUS	ADDRESS (CITY, STATE, AND ZIP CODE)
☐ YES ☐ NO		
☐ YES ☐ NO		
☐ YES ☐ NO		

6 IF THE EDUCATIONAL ORGANIZATION OR ENTITY COVERED BY THIS SURVEY REPORT IS PART OF A MULTI-CAMPUS INSTITUTION, OR PART OF A SYSTEM OF INSTITUTIONS, PLEASE ENTER THE NAME OF THE INSTITUTION OR SYSTEM BELOW. IF NOT APPLICABLE, CHECK HERE: ☐

Definitions of Institutions

Institutional System. A complex of two or more institutions of higher education, each separately organized or independently administered, under the control of a single administrative body.

Multi-Campus Institution. An organization resembling an institutional system, but clearly designed as a single institution with either of two organizational structures: (1) an institution having two or more campuses responsible to a central administration (which central administration may or may not be located on one of the administratively equal campuses) or (2) an institution having a main campus with one or more branch campuses.

Main Campus. In those institutions comprised of a main campus and one or more branch campuses, the main campus (sometimes called the parent institution) is usually the location of the core, primary, or most comprehensive program. (Unless the institution-wide or central administrative office for such institutions is reported to be at a different location, the main campus is understood to be the location of the central administrative office.)

Branch Campus. A campus of an institution of higher education which is located in a community different from that of its parent institution, that is, beyond a reasonable commuting distance from the main campus of the parent institution. To be considered a branch campus,rather than an extension center, the educational activities at the location must be organized on a relatively permanent basis (i.e., have a relatively permanent administration) and include course offerings for one or more complete college-level programs of at least one full year.

COLLEGE AND UNIVERSITY LIBRARIES, FALL 1985

DEFINITIONS AND INSTRUCTIONS

Please read the following explanations and instructions before completing this form.
Detach this portion and mail the completed form either directly to the NCES/HEGIS Processing Center, POB 8637, Silver Spring, Maryland 20907 or to the HEGIS coordinator, if there is a HEGIS coordinator in your state.

In this form, basic data are requested on the collections, staff, expenditures, and developmental areas for college and university libraries. The compilations of these data have proven to be valuable tools for administrators, chief librarians, and others concerned with the improvement of library services to higher education.

GENERAL INSTRUCTIONS

LIBRARY. For the purpose of this survey, a library is defined as an organized collection of printed, microform, and audiovisual materials which (a) is administered as one or more units, (b) is located in one or more designated places, and (c) makes printed, microform, and audiovisual materials as well as necessary equipment and services of a staff accessible to students and to faculty. Report data on units meeting the above definition of a library which are a part of a learning resources center. Do not report data on instructional or other activities performed by learning resources centers which are not included in the definition of a library.

LIBRARY UNITS COVERED. A report should be submitted by each institution, campus or branch which has been certified by the Eligibility and Evaluation Staff of the U.S. Department of Education with its identification code and listed separately in the EDUCATION DIRECTORY, COLLEGES AND UNIVERSITIES. Data on libraries that are separately budgeted or housed (e.g., medicine, law extension center, research center, etc.) should be included in the report for the campus or branch where they are located.

TIME PERIOD COVERED. Data are requested for the following time periods:

(1) Fiscal year 1985 - a 12-month period between June 1, 1984 and September 30, 1985 which corresponds to your institution's fiscal year.

(2) Typical week in fall semester, 1985 - a typical week is one without holidays when the central or main library is open during its regular hours for general use.

(3) Fall 1985 - the point in time in the fall of 1985 when the survey form is being completed.

NEED FOR ESTIMATES. If an exact figure is not available for a particular item but the amount is known to be greater than zero, ENTER AN ESTIMATE OF THE AMOUNT. Indicate the fact that the figure is an estimate by parentheses ( ). Estimates are important if exact data are not available. Items which are left blank will be interpreted as zero or not relevant to your library. Request help from your business office in providing library expenditure and contracted salary and wage data.

FICE CODE NUMBER. Enter the FICE code number for your institution at the upper right hand corner of each page, in item captioned "FICE Code Number." This number is given in the upper right hand corner of the mailing label.

QUESTIONS. If you have questions or need more copies of this form, telephone Robert Thomas, at (202) 254-7351, Division of Multilevel Education Statistics, National Center for Education Statistics.

SPECIFIC INSTRUCTIONS

Part I-Number and Hours of Public Service Outlets, Fiscal Year 1985.

BRANCH LIBRARIES (line 1). Report the number of branch libraries at your institution that were open all or part of fiscal year 1985. (DO NOT COUNT THE MAIN OR CENTRAL LIBRARY.) Branch libraries are auxiliary units which have all of the following: (1) separate quarters, (2) a permanent basic collection of books, (3) a permanent staff, and (4) a regular schedule for opening to the public. They are, however, administered from a central unit and are part of an institution with the same FICE code as the central library.

TOTAL ANNUAL PUBLIC SERVICE HOURS (line 2). Report the total hours of public service of the main or central library and of all branches during fiscal year 1985. If the main library is open 60 hours per week (60 times 52 weeks = 3120), less 5 days of 10 hours each closed for holidays, the main library total is 3120 less 50 = 3070 hours. If 3 branch libraries are also open the same number of hours as the main library (regardless of whether or not all facilities are open at the same time) the annual aggregate for the library is 4 times 3070 = 12,280 hours.

Part II - Library Staff, Fall 1985

FULL-TIME EQUIVALENT (FTE) EMPLOYEES. Report the sum of the number of full-time employees plus the number of full-time equivalent of the part-time employees. To compute full-time equivalents of part-time employees, take the number of hours worked per week by a part-time employee and divide it by the number of hours CONSIDERED BY THE REPORTING LIBRARY TO BE A FULL-TIME WORK WEEK. (E.g., 60 hours per week of part-time work divided by 40 hours per full-time week equals 1.5 FTE).

LIBRARIANS (line 3). Report the number of staff members doing work that requires professional training and skill in the theoretical or scientific aspect of library work, or both, as distinct from its mechanical or clerical aspect. Include unfilled positions if search is currently underway.

ALL OTHER PAID STAFF (line 4). Report the total FTE for all other paid library staff in filled positions in Fall 1985 who are paid annual salaries. If professional or nonprofessional staff in your library are paid hourly wages, yet fill positions which are salaried annually in most other libraries, they should also be included. Exclude maintenance and custodial staff.

CONTRIBUTED SERVICES STAFF (line 5). Report the FTE of contributed services staff. Contributed services staff should be reported only by religious institutions or institutions affiliated with religious or theological organizations. Publicly controlled institutions receiving volunteer or contributed services (if any) should exclude data respecting such services in this report.

STUDENT ASSISTANCE FROM ALL FUNDING SOURCES (line 6). Report the total FTE for student assistance, by students employed on an hourly basis whose wages are charged either to the library budget or to a budget other than the library budget. Exclude maintenance and custodial staff.

TOTAL STAFF (line 7). Report the sum of lines 3, 4, 5 and 6.

PART III - LIBRARY OPERATING EXPENDITURES, FISCAL YEAR 1985

PART III has been divided into two sections to facilitate reporting. All operating expenditures should be reported in Section A, Standard Operating Expenditures, which includes lines for items that appear in most library operating budgets. Section B, Selected Special Expenditures, includes lines for expenditures which may appear in different places on different library budgets. (For example, online database searching may be considered collection expenditures in some libraries. In others, it may be reported under "other operating expenditures.") Amounts reported in Section B *should have been reported in Section A*, most likely as "other operating expenditures." They are requested here, however, so that trends in these important areas may be documented.

EXPENDITURES (lines 8-24). Report the funds expended in fiscal year 1985 regardless of when the funds may have been received from Federal, State, or other resources. Expenditures should be reported for the 12-month period which corresponds to your library's fiscal year between the calendar period of June 1, 1984 to September 30, 1985. Report all expenditures in whole dollars; omit cents.

SECTION A: Standard Operating Expenditures

SALARIES AND WAGES (line 8). Report expenditures for full-time and part-time salaries and wages before deductions, but exclude fringe benefits provided by your institution for all regular library staff. Exclude contributed services, maintenance and custodial staff, and students serving on an hourly basis.

FRINGE BENEFITS (line 9). Report the sum of all fringe benefits provided by your institution for all library staff whose salaries and wages are shown on line 8 (exclude maintenance and custodial staff and students serving on an hourly basis). Fringe benefits are defined as cash contributions in the form of supplementary or deferred compensation other than salary. The employee's contribution should be excluded when determining the dollar value of fringe benefits. Fringe benefits include: retirement plans; hospitalization, surgical, and medical plans; guaranteed disability income protection plans; tuition plans; housing plans; social security taxes; unemployment compensation plans; group life insurance plans; workmen's compensation; and other benefits in-kind with cash options.

PRINT MATERIALS (line 10). Report expenditures for all materials consisting primarily of words and usually produced by making an impression with ink on paper. Included in this category are materials that do not require magnification: books, government documents, braille materials, ephemeral print materials, and the like. Exclude serial subscriptions and microforms.

SERIAL SUBSCRIPTIONS (line 11). Report expenditures for all publications issued in successive parts, usually at regular intervals, and as a rule, intended to be continued indefinitely. Serials include periodicals, newspapers, annual (reports, yearbooks, etc.), memoirs, proceedings, and transactions of societies; they may include monographic and publishers' series.

MICROFORMS (line 12). Report expenditures for all photographic reproductions of textual, tabular, or graphic materials reduced in size so that they can be used only with magnification. The two main types of microforms are microreproductions on transparent material (roll microfilm, aperture cards, microfiche, and ultrafiche) and reproductions on opaque materials. Excluded serial subscriptions.

COMPUTER SOFTWARE (line 13). Report expenditures for all programs, procedures, and associated documentation that instruct the computer to perform certain types of tasks, in contrast to the physical components of a computer (hardware).

AUDIOVISUAL MATERIALS (line 14). Report expenditures for all library materials that are displayed by visual projection or magnification or through sound reproduction, or both, including graphic materials, audio materials, motion pictures, video materials, and special visual materials such as cartographic and three-dimentional materials.

OTHER (line 15). Report any expenditures for other collection materials not placed in lines 10 to 14.

BINDING AND REBINDING (line 16). Report only expenditures paid to commercial binderies for all binding and rebinding of books and periodicals during the 1985 fiscal year. Do not allocate wages, materials, etc., for binding.

EQUIPMENT (line 17). Report only expenditures for all library equipment purchased during 1985 fiscal year. Include microform equipment, audiovisual equipment and computer related equipment.

ALL OTHER OPERATING EXPENDITURES (line 18). Report expenditures for travel, rental, leases, insurance, postage and freight, printing, replacement of equipment and furnishings, supplies and membership costs. Exclude expenditures for utilities, plant maintenance and operation, and capital outlay.

SECTION B: Selected Special Expenditures.
Note: These expenditures should have been included in lines 8 to 18.

POSTAGE (line 20). Report all expenditures for postage and delivery, including U.S. Mail and commercial delivery services during the 1985 fiscal year.

TELECOMMUNICATIONS (line 21). Report any separately billed expenditures for all types of telephone services and for such services as electronic mail, teleconferencing, telefacsimile, teletype, telex, etc.

CONTRACTED COMPUTER SERVICES (line 22). Report any costs related to purchased library services done for your library on computers by a computerized library network, computerized cooperative library organization, or by a commercial organization providing library services. Telecommunications costs may be included.

ONLINE DATABASE SEARCHING (line 23). Report any expenditures for all reference transactions in which the source utilized is one or more databases searched online by computer.

COMPUTER HARDWARE (line 24). Report any costs related to the purchase of computers, printers, or any physical component of a computer.

PART IV - LIBRARY COLLECTIONS, FISCAL YEAR 1985

TOTAL NUMBER ADDED DURING FISCAL YEAR. Report the number added. Do not subtract the number withdrawn.

TOTAL NUMBER HELD AT END OF FISCAL YEAR. Self-explanatory.

BOOKS. Nonperiodical printed publications bound in hard or soft covers, or in loose-leaf format, of at least forty-nine pages, exclusive of the cover pages, or a juvenile nonperiodical publication of any length bound in hard or soft covers.

SERIALS. Publications issued in successive parts, usually at regular intervals, and as a rule, intended to be continued indefinitely. Serials include periodicals, newspaper, annual (reports, yearbooks, etc.), memoirs, proceedings, and transactions of societies; they may include monographic and publishers' series.

GOVERNMENT DOCUMENTS. Any publication in book, serial, or other form of library materials that are published by a government agency, e.g., the publication of federal, state, local, and foreign governments and of intergovernmental organizations to which governments belong and appoint representatives, such as the United Nations, Organization of American States, and the Erie Basin Commission.

PERIODICALS. A publication in any medium intended to appear indefinitely at regular or stated intervals, generally more frequently than annually. Individual issues are numbered consecutively or dated and normally contain separate articles, stories, or other writings. Do not include newspapers disseminating general news, and the proceedings, papers, or other publications of corporate bodies primarily related to their meetings.

NEWSPAPER. Those serials that are designed mainly to be a primary source of written information on current events. They may also include articles as well as illustrations, advertising, legal notices, and vital statistics. Newspapers appear with a masthead and are usually printed on newsprint without a cover.

VOLUMES (line 25). For reporting purposes, a volume is a physical unit of any printed, typewritten, handwritten, mimeographed, or processed work, contained in one binding or portfolio, handbound or paperbound, which has been cataloged, classified, or otherwise made ready for use.

TITLES (line 26). For reporting purposes, a title is a publication which forms a separate bibliographic whole, whether issued in one or several volumes, reels, disks, slides, or parts. It applies equally to printed materials, such as books and periodicals, as well as to audiovisual materials and microforms. Report the number of items for which a separate shelflist card has been made. (SHELFLIST: A record of materials in a library, arranged in the order in which the materials stand when they are shelved or stored.) Thus, six copies of the same edition of a title count as one title; two editions of the same title which have been cataloged or recorded separately count as two titles; a set of six items for which six shelflist cards have been made count as six titles; and two sets of the same edition for which one shelflist card has been made count as one title.

METHOD FOR ESTIMATING THE NUMBER OF TITLES IN THE COLLECTION:

A library which does not maintain a title count of its various collections and which cannot easily count the number of separate shelflist cards should use the following method for estimating this count:

1. Pressing the cards tightly together, measure the total number of inches in the shelflist.
2. Using the same amount of pressure, measure one inch of cards in the shelflist. Count the number of titles contained in the inch.
3. Repeat step 2 at regular intervals (for example, count one inch in every foot, or in every three feet, or other pre-established intervals) to ensure measuring at least seven sample inches distributed throughout the shelflist.
4. Average the number of titles per inch in the samples. If any sample varies from the average by more than four cards, repeat steps one through four, applying more even pressure to the cards.
5. Multiply the average titles per inch by the total number of inches of cards in the shelflist.

CURRENT SERIAL SUBSCRIPTIONS (line 28). Report the number of titles subscribed to, and not the number of individual issues (exclude duplicate subscriptions). Include periodicals, newspapers, and government documents issued serially.

MICROFORMS (lines 29-32). Report the number of titles of materials that have been photographically reduced in size for storage, protection, and inexpensive publication purposes, and which must be read with the help of enlarging instruments. Examples of microforms are: microfilm, microcard, and microfiche. These are also called microcopy and microtes.

MANUSCRIPTS AND ARCHIVES (line 33). Report the linear feet of shelfspace occupied by these materials. Manuscripts are handwritten or typed documents, including carbon copies. Archives are nonrecurrent records of an organization or institution preserved because of their continuing value.

CARTOGRAPHIC MATERIALS (line 34). Report the number of units of materials representing in whole or in part the earth or any celestial body at any scale. These materials include two- and three-dimensional maps and globes.

GRAPHIC MATERIALS (line 35). Report the number of units of materials for viewing without sound. The materials may or may not be projected or magnified. They include art originals, art prints, art reproductions, slides, transparencies, filmstrips, photographs, pictures, postcards, posters, study prints, and the like.

AUDIO MATERIALS (line 36). Report the number of titles of materials on which sounds (only) are stored (recorded) and that can be reproduced (played back) mechanically or electronically, or both. These materials include audiocassettes, audiocartridges, audiodiscs, audioreels, talking books, and other sound recordings.

FILMS (line 37). Report the number of titles of films, a term which is used interchangeably with "motion picture" which is a length of film, with or without recorded sound, bearing a sequence of images that create the illusion of movement when projected in rapid succession (usually 18 or 24 frames per sound). Motion pictures are produced in a variety of sizes (8, super 8, 16, 35, 55, and 70 mm) and a variety of formats (cartridge, cassette, loop, and reel). Common motion picture sizes in instructional use are 8mm, supper 8mm, and 16mm.

VIDEO MATERIALS (line 38). Report the number of titles of materials on which both pictures and sound are recorded. Electronic playback reproduces both pictures and sounds using a television receiver or monitor.

MACHINE-READABLE MATERIALS (line 39). Report the number of titles of materials in a form designed to be processed by a machine, usually a computer, either as input or as output, that have data recorded on them in some form. These materials include data files and computer program files. Typically, these files are stored on such media as punched cards, paper type, magnetic tape and disks, and digital videodisks. These materials excludes computer outputs that are eye-legible or can be read with magnification. Include microcomputer software in this category.

OTHER LIBRARY MATERIALS (line 40). Report here any materials not already included in lines 25-39.

PART V - LIBRARY LOAN TRANSACTIONS, FISCAL YEAR 1985

CIRCULATION TRANSACTIONS (lines 41-42). Report the number of items lent from the general and reserve collections of the library for use usually (although not always) outside the library. These activities include charging, either manually or electronically, and also renewals, each of which is reported as a circulation transaction.

RESERVE COLLECTION are those materials that have been removed from the general library collection and set aside in a library so that they will be on hand for a certain course of study or activity in process. Usually, the circulation and length of loan of items in a reserve collection are restricted so that these items will be available to many users who have need of them within a limited time period.

INTERLIBRARY LOANS (lines 43-44). Report the number of transactions in which library materials, or copies of the materials, are made available by one library to another upon request. Loans include both lending and borrowing. The libraries involved in interlibrary loan *are not* under the same administration or on the same campus.

PART VI - LIBRARY SERVICE PER TYPICAL WEEK, FALL 1985

Collect data during a typical week in the fall and report the numbers here. A typical week is defined as a week in which the library is open for its regular hours and contains no holidays. It is seven consecutive calendar days, from Sunday through Saturday, or whatever days the library is normally open that period. If data are available for an entire year rather than for a typical week, then estimate a weekly count by dividing the annual figure by 52.

PUBLIC SERVICE HOURS PER TYPICAL WEEK (line 45). Consider both main library and branches using the following method. If a library is open from 9:00 a.m. to 5:00 p.m. Monday through Friday, it should report 40 hours per week. If several of its branches are also open during those hours, the figure remains 40 hours. Should Branch A also be open one evening from 7:00 to 9:00, the total hours which users can find service becomes 42. If Branch B is open the same hours on the same evening the total remains 42, but if it is open 2 hours on another evening, or from 5:00 to 7:00 on the evening when Branch A is open later, the total becomes 44 hours during which users can find service.

TOTAL ATTENDANCE IN LIBRARY PER TYPICAL WEEK (line 46). Report the total number of persons entering the library per typical week, including persons attending activities, meetings, and those persons requiring no staff services.

IN-LIBRARY USE OF LIBRARY MATERIALS PER TYPICAL WEEK (line 47). Report the total number of materials utilized in the library, but not checked out. These materials include reference books, periodicals, book stock, and all other library materials that are used WITHIN the library.

TOTAL REFERENCE TRANSACTIONS PER TYPICAL WEEK (line 48). Report the total reference transactions per typical week. A reference transaction is an information contact which involved the knowledge, use, recommendations, interpretation, or instruction in the use of one or more information sources by a member of the library staff. Information sources include printed and non-printed materials, machine-readable databases (including computer-assisted instruction), catalogs and other holdings, records, and, through communication or referral, other libraries and institutions, and persons both inside and outside the library. Include information and referral services. A contact that includes both reference and directional services should be reported as one reference transaction. When a staff member utilizes information gained from previous use of information sources to answer a question, report as a reference transaction, even if the source is not consulted again during this transaction. Duration should not be an element in determining whether a transaction is reference of directional.

TOTAL DIRECTIONAL TRANSACTIONS PER TYPICAL WEEK (line 49). Report the total directional transactions per typical week. A directional transaction is an information contact which facilitates the use of the library in which the contact occurs and which does NOT involve the knowledge, use, recommendation, interpretation, or instruction in the use of, any information sources other than those which describe that library, such as schedules, floor plans, handbooks, and policy statements. Examples of directional transactions include giving instruction for locating, withing the library, staff, library users, or physical features, etc., and giving assistance of a non-bibliographic nature with machines.

INFORMATION SERVICE TO GROUPS (line 50-51). Report the total number of presentations per typical week on line 50 and the total members of persons served on line 51. An information contact is one which a staff member or person invited by a staff member provides information intended for a number of persons and planned in advance. Information service to groups may be either bibliographic instruction or library use presentations, or it may be cultural, recreational, or educational presentations. Presentations both on and off the library premises are included, as long as they are sponsored by the library. Do not include meetings sponsored by other groups using library meeting rooms.

ONLINE DATABASE SEARCHES PER TYPICAL WEEK (line 52). Report the number of reference transactions in which the source utilized is one or more databases searched online by computer.
